Concentration on Science & Mathematics, foundational knowledge in programming and logical thinking.

Work Experience

Kanakdrishti Infotech

Jul 2025 - Sept 2025

Backend Developer (Contract-Based 3-Months)

- Designed, developed, and maintained three comprehensive web applications: an E-commerce platform, a Multi-Level Marketing (MLM) system, and a Billing & CRM solution, delivering high-quality software within tight deadlines.
- Architected backend solutions using Laravel MVC and RESTful APIs for seamless integration with frontend frameworks.
- Optimized MySQL databases for complex queries, implemented indexes and relationships to enhance performance and scalability.
- Integrated secure payment gateways, developed role-based access control (RBAC), and implemented advanced authentication and authorization systems.
- Adopted Git for version control, collaborated with team members through code reviews, and ensured adherence to coding standards and best practices.
- Provided technical support and documentation for all projects to ensure maintainability and knowledge transfer.

Code Optimal Solutions

May 2024 - Apr 2025

Associate Software Developer (1 year)

- Developed and maintained scalable web applications using Laravel framework, following strict MVC architecture and software design principles.
- Integrated third-party APIs, designed RESTful endpoints, and facilitated efficient communication between frontend and backend.
- Built efficient MySQL database schemas, wrote optimized queries, and ensured data integrity across multiple applications.
- Implemented complete user authentication, authorization, role-based access control, and validation mechanisms.

- Collaborated with UI/UX teams to develop responsive and user-friendly interfaces using Blade templates and Bootstrap.
- Integrated secure online payment solutions in WordPress WooCommerce and Laravel platforms to enable smooth financial transactions.
- Participated in Agile sprint planning, daily stand-ups, code reviews, testing, and deployment, contributing to on-time project delivery.
- Mentored junior developers and assisted in knowledge sharing sessions to enhance team productivity.

Ducat IT Training School Noida

Dec 2022 - May 2023

Salesforce CRM Training (6 months)

- Completed hands-on training in Salesforce Sales Cloud, Service Cloud, and core CRM functionalities with practical implementation projects.
- Developed skills in Apex programming, Visualforce pages, and process automation for enterprise-level business workflows.
- Gained expertise in Salesforce Lightning Components, data modeling, reporting, and dashboard creation for business analysis.
